

Solaris Duo Li-ion

The most powerful battery powered floodlight in the world. The SOLARIS DUO offers a real alternative to generator powered lights, offering a very high light output up to 32,000 lumens.

It is lightweight and all parts are housed in an unbreakable plastic case. It has wheels and pull-up handle for easy transportation.

The DUO has telescopic poles reaching to 1.9 metres and is stable due to the retractable stability legs.

Widespread illumination

Retractable stability legs

Solaris Duo Li-ion

- 25 year guarantee on the case
- Sturdy stackable case
- Wheels and integrated pull up handle
- Comfortable rubber coated anti-slip handle

Battery status indicator

- All parts are housed inside the IP67 rated case
- Vacuum moulded fitting for safe storage of parts
- High visibility locking latches for easy setup
- Battery status indicator
- Retractable high visibility stability feet
- Carbon fibre telescopic poles

Available in orange or black

Supplied with:
 Heavy duty case
 2 Solaris 16k head units
 AC Mains charger 16A
 Carbon fibre poles
 Diffused filter

Product Code	Weight	Dimensions Case
NSSOLARIS216K-LI-ION-50A	19.6KG	(H)250 (L)570 (D)340mm
NSSOLARIS216K-LI-ION-36A	19.2KG	(H)250 (L)570 (D)340mm

Solaris Power Packs are designed to increase the running times of your Solaris light. The power pack is housed in a robust case and has a battery power indicator to ensure you don't get left in the dark.

Increased running times

- Maintenance free, lightweight li-ion battery pack
- Durable, sturdy, stackable case IP55
- Battery status indicator on the case
